Basis of this opinion

1. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

☐

This opinion has been established on the basis of a translation from the original language into the following language

_____, which is the language of a translation furnished for the purposes of international search (under Rule 12.3 and 23.1(b)).

2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:

- a. type of material

☐

a sequence listing

☐

table(s) related to the sequence listing

- b. format of material

☐

in written format

☐

in computer readable form

- c. time of filing/furnishing

☐

contained in the international application as filed.

☐

filed together with the international application in computer readable form.

☐

furnished subsequently to this Authority for the purposes of search.

3. ☐ In addition, in the case that more than one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

4. Additional comments:

Claims 4 and 6

The subject matters of claims 4 and 6 do not appear to be novel in view of document 1 cited in the ISR. The welding rod for coat arc welding described in claim 1 is disclosed in claim 2 and Table 4 of document 1.

Claims 1-3, 5 and 7

The subject matters of claims 1-3, 5 and 7 appear to involve an inventive step in view of documents 1-8 cited in the ISR. Documents 1-8 do not describe the Ni base high Cr alloy filler material containing 0.5 wt% of Nb and 0.005 to 3.0 wt% of Ta, wherein the content of Al is 0.01 to 0.4 wt% and the content of Ti is 0.01 to 0.45 wt%, and this aspect could not be easily conceived by a person skilled in the art.
